

SC Seal Tape N

## Excellent Cold・Heat Resistance!

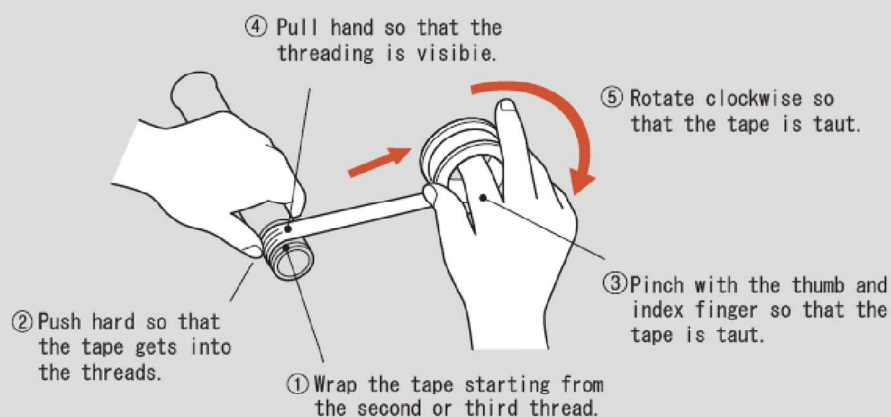

Material: PTFE  
(Fluororesin)

### Features and Applications

- Simply wrap it around screw joints to seal.  
Easy to screw on and unscrew.
- Excellent cold/heat resistance from  $-200^{\circ}\text{C} \sim +250^{\circ}\text{C}$ .
- Not damaged by chemical agents, solvents, or vapor.
- Easy to work with. Hands stay clean, which is different from when using conventional hemp yarn and liquid compounds.
- In addition to iron, aluminium, stainless steel, etc, it can also be used for plastic pipes

### How to Wrap the Seal Tape

Wrap the tape around the threading and push lightly with your finger. Tape gets into the threading and seals it.
