

## SC Seal Tape Specifcaton

1. Structure: PTFE Seal Tape is a product that extrudes PTFE spared molded body including aid, and dry to remove the aid after extrusion,then slitting in specified sizes and winding around a reel.

2. Quality Characteristic: The tolerance for PTFE Seal Tape is defined as the chart 1. shows.

( Chart 1. )

Item	Standard Dimension	Tolerance	Range
Thickness (mm)	0.10	±0.02	0.08~0.12
Width (mm)	13.0	±0.5	12.5~13.5
Length (meter )	15.0	+10, -0	15.0~16.0

3. Apparence: The color of seal tape is white, and there are no cuts or no foreign substances.

4. Density:  $0.60 \pm 0.1(\text{g}/\text{cm}^3)$

5. Heat resistance:  $-200 \sim +260^\circ\text{C}$

6. Chemical resistance:

Acid	Good
Alkali	Good
Organic Solvent	Good
